

Pastoral Services Scope of Services

The Pastoral Services Department is committed to addressing the spiritual and religious needs of residents in support of their primary health care. Although residents are the prime focus, pastoral services are also available to the families and friends of residents and to the Isabella staff.

This department is sensitive to and supportive of individual beliefs, religious or secular values and preferences, organizational affiliations and other specific directives. Isabella's Pastoral Services Department provides compassionate spiritual care to persons of all faiths and to persons who may not practice or acknowledge any organized faith tradition. Some of the observances include:

Buddhist
